

Spanish Overview

At Park Road Academy Primary School, we are committed to offering a relevant, broad, and vibrant Spanish curriculum designed to inspire and excite our KS2 pupils through a wide variety of topics and themes. Each year, every class will focus on three main topics to support the teaching of Spanish. Our curriculum focuses on the four key language learning skills: listening, speaking, reading, and writing, ensuring all necessary grammar is covered in an age-appropriate manner throughout the primary phase. This approach enables pupils to use and apply their learning in various contexts, laying down solid foundations for future language learning and enhancing overall attainment in other subject areas. We use the three pillars of teaching language: vocabulary, phonics, and grammar, to build a comprehensive and engaging learning experience for our pupils.
